GLITCHMACHINES®

TACTIC 2.0 UPGRADE INFO:

Customers who purchased Tactic 1.x via **our website** have been sent an exclusive $20 upgrade offer email via DPD.

That upgrade email is a **separate email** from the mailing list launch notice - it is only sent to customers who purchased from our site - i.e. you must upgrade from the same source you purchased the previous version.

Customers who bought Tactic 1.x within 30 days of the 2.0 product launch are eligible for a free upgrade (this only applies to purchases made directly on our website and must be done manually by our support team - please **contact us via email for assistance**)

Please get in touch with us via email if you need any assistance with your order: glitchmachines.sales@gmail.com
_____

Customers who purchased Tactic 1.x via Plugin Boutique must upgrade via their website (upgrade cost: $20 USD).

Customers who purchased Tactic 1.x via VSTBuzz must contact Plugin Boutique customer support for assistance with upgrades.

Plugin Boutique will have Tactic 2.0 available as soon as possible; please contact **their support team** with inquiries on availability or if you require assistance with your upgrade: https://support.pluginboutique.com/hc/en-gb
_____

NOTICE:

• This is a **64bit**-only **VST3** or **Audio Unit** plugin - please ensure compatibility with your system **prior** to purchasing an upgrade. Minimum System Requirements are posted toward the bottom of the Tactic web page: https://glitchmachines.com/products/Tactic/

• Tactic 2 is **NOT BACKWARDS COMPATIBLE** - back up your relevant DAW sessions **prior** to upgrading.

• Patches constructed on earlier versions of Tactic are **not compatible** with version 2.

Although you are free to continue to use the old version (Tactic 1.x), it has now been **discontinued** and no longer available publicly. If you wish to continue using it in the long run - for example with an older machine - it is your responsibility to keep a backup of the installer and relevant files.
